SQL, Python, data visualization, web development, technical writing

After having been an educator, I'm now seeking to start a new career with an entry-level computer technology position. My primary interest is the structuring of information. I aim to create works with an intuitive sense of order and purpose.

Technical skills

SQL

Oracle PL/SQL, Microsoft T-SQL, SQLite, MySQL

Fundamental understanding of the relational database model and entity-relationship diagrams

Python

Flask, SQLAlchemy, Jinja2, pandas, Matplotlib

Some experience with Tkinter, Django, and Jupyter Notebook

Fundamental understanding of object-oriented programming

Web development

HTML, CSS, JavaScript, Bootstrap, WordPress

Browser developer tools

Additional skills

Git and GitHub, macOS, Windows, Unix/Linux command line, fundamentals of TCP/IP stack

Microsoft Office, Google Workspace, Adobe Creative Suite

Strong writing skills, both technical and creative

Education

Database Design and SQL / Certificate / Portland Community College / GPA: 4.0

Computer Information Systems / Certificate / Portland Community College / GPA: 4.0

English / Bachelor of Arts / University of Colorado at Boulder / GPA: 3.48

Creative Writing / Graduate studies / University of Notre Dame

Graphic Design / Associate of Applied Science / Portland Community College / GPA: 3.92

Work experience

Educational Assistant / The Montessori House of St. Johns / Portland, OR / 2017–present

Freelance website and graphic design / 2008–present

Nanny / Portland, OR / 2013–2017

Paraprofessional / Special Education / Portland Public Schools / 2007–2014
